

URS Corporation, ranked one of Engineering News-Record's list of the Top 500 Design Firms for Eight consecutive years is a leading provider of planning, design, systems engineering and integration, technology development, program and construction management, and operations and maintenance services to federal, state and local government agencies in the U.S., Fortune 500 corporations worldwide and government clients in Europe and Asia/Pacific. We're currently looking for a Facilities Design Department Manager for our Sacramento, CA office.

Minimum Requirements:

Requires a Bachelor's degree in Architecture or Engineering from an accredited University.

License/Registration: Architecture or Engineering in California or ability to obtain California Registration within 6 months.

The candidate must have a minimum of 15 years of experience in project management of projects for Federal Agencies (General Services Administration, Army Corps of Engineers, NAVFAC, USAF, etc.).

Seller/Doer skills and Design-build experience is required.

Candidate should have excellent verbal, writing, and people management skills. Will work with multiple teams to pursue, manage, and deliver projects.

Position Description :

The candidate will be in-charge of the day-to-day management of the URS Sacramento Architectural Department. The URS Sacramento Architectural Department consists of over 20 Professional Architects, Interior Designers and Designer/Drafters with an annual labor budget of \$5 million. The successful candidate will manage diversified projects from conception through completion including pre-proposal work, Planning, Design and Construction Administration, Scheduling, Supervising project team and sub-consultants and interfacing with client.

The successful candidate will also be required to interface and manage both in-house and sub-contracted professional engineering support personnel (Mechanical, Electrical, Civil, and Structural) on all Facilities projects.

The Architectural Department Manager will be responsible for marketing both external and internal clients, developing the workload for the department and developing short, medium and long term business development goals and objectives and will participate in proposal development, presentations and other related business development activities. The successful candidate should have existing relationships with an established client base in the Federal sector and will be responsible for the successful completion of design support services for federal design-build facility projects while meeting stringent quality,

schedule and financial performance criteria.
