January 2010 Monthly Program

LEED Updates

.....

Speaker:

Brian A. Sehnert, AIA, LEED AP

Senior Consultant with Green Building Services

Green Building Services is a registered provider of AIA and is qualified under the USGBC's new Education Provider Program (EPP). This program will provide an overview of the new LEED 2009 rating system and the USGBC's new professional accreditation strategy.

Learning objectives:

- I. LEED 2009 Overview
 - a. Clarify LEED v.3 changes
 - b. Prepare you to make the transition to LEED 2009
 - c. Have general awareness of how the changes influence LEED certification strategy
 - Introduction to requirements of the new LEED Professional Accreditation Program

.....

Brian Sehnert – Bio

A registered Architect and LEED Accredited Professional, Brian is recognized as an expert in the area of green building and sustainable design and construction and is personally dedicated to making high-performance and renewable-energy systems more prevalent in commercial construction projects. His lectures have helped to educate building owners and industry professionals on environmental and passive design, photovoltaics and other advanced technologies.

Brian's commitment to sustainability extends beyond his daily professional career: he serves as the Chair of the City of Sacramento's Design Commission, is the Chair of the AIA Central Valley Chapter Committee on the Environment, and is a founding member of the Northern California Chapter U.S. Green Building Council.

Brian was the LEED Accredited Professional for the LEED EB Platinum certification of the SMUD Customer Service Center, and he is currently working on several EBOM projects.
