Instructor: Kit Tuveson, CFM, IFMA Fellow

The Certified Facilities Manager (CFM) credential sets the industry standard for ensuring the knowledge and abilities of practicing facility managers. It is the only globally recognized certification for the facility management profession.

This is the definitive course preparation for the CFM examination. The course is designed to assist facility professionals seeking certification with preparation for the competency-based examination.

The course is organized around the following nine areas of facilities management competency: Operations and Maintenance, Real Estate, Human and Environmental Factors, Planning and Project Management, Leadership and Management, Finance, Quality Assessment and Innovation, Communication and Technology.

Learning Objectives:

- Update and assess your knowledge and skills related to each competency area
- Learn about the format of the exam and review sample questions
- Become more confident and comfortable when you take the exam
