4. Community Based Disaster Preparedness- discussion on how to develop and implement a locally appropriate and locally owned "strategy" for disaster preparedness and risk reduction.
5. Case Study- when disaster strikes; taking a look at building science
6. How to handle a disaster- Learning the step by step process of responding to a disaster.

.....

Charles Cassani's Bio:

With 37 years experience in cleaning, restoration, project management and damage appraisals, Cassani handles the high-profile and large losses at Steamatic of Sacramento (S.O.S.). Cassani provides professional consulting and expert witness services in fire, water and mold damage restoration for attorneys, insurance companies and public entities. He is qualified as an expert in personal property appraisal, cleaning, restoration and remediation by the Superior Court and U.S. Federal Court in Sacramento. Cassani was the first restoration contractor in Sacramento to become a Certified Restorer as designed by the Restoration Industry Association. This is the highest recognition awarded in the cleaning and restoration industry to professionals engaged in property damage restoration as a result of fire, smoke, water, vandalism and other perils. In March 2009, Cassani was elected to RIA's board of directors. Cassani holds many other certifications including Certified Air Cleaning Specialist through the National Air Duct Cleaners Association (NADCA). Cassani is a licensed general contractor through the state of California with a specialty license for air dust cleaning. Cassani earned a bachelor's degree and completed graduate work at California State University at Sacramento.
